

Sticky

Frame Information

In a collaborative effort with a leading tubing company, Cherubim introduces the innovative "Sticky" model, featuring a specially designed 25.4mm skinny downtube that maximizes the inherent flexibility of steel. This unique construction results in a ride that is not only remarkably comfortable but also highly responsive. Beyond its suitability for touring, "Sticky" excels in long hill climbs and audax racing, showcasing its versatility across varied cycling pursuits. Moreover, recognizing the diverse needs of cyclists, the option to choose alternative tubing sizes is available, allowing riders to tailor the bike to their specific preferences and purposes.
